

**Project Details**

PROJECT NAME	Complex Lift - Stack
PROJECT LOCATION	Yabulu North Townsville, QLD
CASA ROLE	Sub Contractor
CLIENT	Queensland Nickel
CONTRACT VALUE	\$250,000.00
PROJECT COMPLETION DATE	2007
CONSTRUCTION MANAGER	Peter Casa
PROJECT MANAGER/CONTRACT ADMINISTRATOR	Peter Casa
SITE SUPERVISOR/SITE MANAGER	Glen Gillies

**Project Scope**

As part of the Nickel Briquette Furnace Expansion at Queensland Nickel, CASA Engineering was appointed to undertake the lift study, accept delivery of the prefabricated stack sections and complete the erection over a two day period. Bolted sections required access via a dog-box at all times.

CASA supplied 100% of the resources and equipment for the project, maintaining stringent control on safety and coordination within an active and operational refinery environment.
