

Project Details

PROJECT NAME	Goonyella Mine – Culverts
PROJECT LOCATION	Moranbah, QLD
CASA ROLE	Subcontractor
CLIENT	BMA – Simon Allan Earthmoving
CONTRACT VALUE	\$6.5M
PROJECT COMPLETION DATE	August 2012
CONSTRUCTION MANAGER	Peter Casa
PROJECT MANAGER/CONTRACT ADMINISTRATOR	Peter Casa
SITE SUPERVISOR/SITE MANAGER	Glen Gillies

Project Scope

BMA mine site at Goonyella required additional drainage provisions to enable progression of other mine construction activities on the site. The drainage works involved the separation of both mine and non-mine runoff in affected areas and diversion of this runoff to specific drainage channels.

There are 4 key areas of scope in CASA's contract. Scope includes the provision of plant and labour to survey, supply/deliver and unload culvert pipes, bed excavation with selected fill, install and join pipe, backfill pipe and compact with select fill.

Work was coordinated to meet staging as defined by the Client and to coordinate with other mine site operations. CASA provided mine-spec equipment and BMA-inducted supervisors, staff and subcontractors in order to carry out these works to strict safety and quality standards.
